

# Helping Children & Young Adults Thrive

Evidence-based weight care combining FDA-approved GLP-1 medications with nutrition and behavioral support for ages 12-17

## WHAT IS THRYVWELL?

Thryvwell Health is a virtual pediatric metabolic health program that combines FDA-approved GLP-1 medications with nutrition guidance, behavioral support, and continuous monitoring, all supervised by board-certified pediatric specialists and delivered from the comfort of your home.

## WHAT YOU CAN EXPECT

- ✓ Board-certified pediatric specialists
- ✓ FDA-approved medications only.
- ✓ Thryvwell handles all insurance paperwork
- ✓ Monthly visits + nutrition support
- ✓ Comprehensive lab work before medication
- ✓ AAP Clinical Practice Guidelines

**\$149/month**

Program Membership

**\$0-25**

Typical OOP for Medication

**100%**

Virtual, Physician-Led Care

## THE THRYFLOW CARE JOURNEY

GLP-1 medications work best paired with lasting nutrition and lifestyle habits—ThryvFlow is that foundation.

### ThryvStart

We complete a clinical evaluation and labs, then build a personalized plan—nutrition, health habits, and GLP-1 medication if appropriate.

### ThryvSteady

Doses increase gradually under close oversight. We manage any side effects as you child continues building healthy habits for long-term results.

### ThryvStrong

Your child is showing measurable progress and growing confidence. We reinforce healthy habits to protect the gains they've earned.

### ThryvWell

We partner with you and your child on long-term wellness, which may mean continuing medication, tapering gradually, or transitioning fully.

## Ready to Get Started?

Enrollment opens fall 2026. Scan the QR code or visit the link below to get priority access and reserve your spot.
